## PROJECTS

2022

Individual Project

**Sole Development**

First Project made in Henry`s bootcamp in order to finish the individual step.

Virtual restaurant simulation

link: < <https://pi-food-versel-v3.vercel.app/> />

2022

Final/Group project (CodeBug)

**Back-End development**

This Website represents a space for doubts for those beginning to get into the world of programation

With a friendly interface and understandable for everybody

Also, it`s the project requiered from Henry in order to approve their bootcamp and graduate
